

HoopsConnect is a mobile and web application purpose-built for the Jamaica Basketball Association. It replaces spreadsheets, WhatsApp groups, and word-of-mouth with a **single platform** where administrators, team representatives, statisticians, media, and fans all have the tools they need to run and follow the league.

ROLE	WHAT THEY CAN DO
Admin	Manage the entire league — stats, schedules, users, divisions
Team Rep	Post team updates, acknowledge notices, view team stats
Statistician	Enter and manage game statistics
Media / Press	Access press tools, generate summaries, export stats
Fan	Follow standings, leaderboards, schedules, and box scores

1 Getting Started

SETUP IN 30 SECONDS

- **Download the app** — iPhone users via TestFlight, Android users via Google Play
- **Create your account** — Sign up with email, Google, or Apple ID
- **Use an invite code** — Team reps, statisticians, and media receive a 6-character code from the JBA that automatically assigns their role and team
- **No code needed for fans** — Just sign up and start following the league

**Announcements**

Season updates, schedule changes, venue notices, referee assignments — all in one place.

**Pin & Prioritize**

Mark critical posts as pinned or urgent so they stay at the top and stand out.

**Acknowledgment Tracking**

Require team reps to acknowledge critical notices. Track who's seen it and who hasn't.

**Auto Reminders**

Automatic push reminders to anyone who hasn't acknowledged before the deadline.

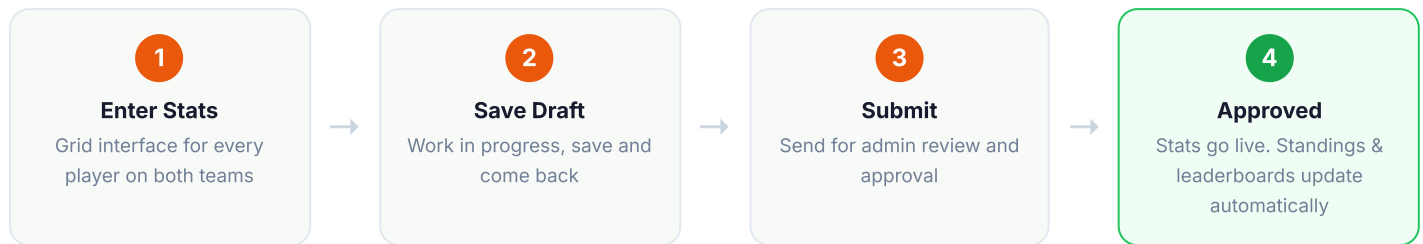

Why It Matters

No more chasing people on WhatsApp. There's a clear record of who has seen every notice. Saves hours of follow-up and ensures accountability across all teams.

3 Stats & Box Scores — The Game Changer

EVERY GAME RECORDED

Every game gets a full statistical record. For each player: **Points, Rebounds (Off + Def), Assists, Steals, Blocks, Fouls, Minutes.**

Live Stats Mode

Real-time recording during games. Tap actions as they happen — 2PT, 3PT, FT, REB, AST, STL, BLK, FOUL. Tracks clock, subs, and foul-outs automatically.

Full Box Scores

Every completed game has a detailed box score with player stats, team comparisons, and quarter-by-quarter breakdowns viewable by anyone.

Why It Matters

Every game creates a permanent record. Players build statistical profiles. Coaches review performance. **Scouts evaluate with real data.**

4 Leaderboards & Player Cards

WHAT SCOUTS WILL USE

5 Leaderboard Categories

Points, Rebounds, Assists, Steals, Blocks per game. Filter by division or view league-wide. Updated automatically after every approved game.

Individual Player Cards

Tap any player to see their full profile: season averages, game-by-game log, team, games played. A digital resume — shareable and always up to date.

5 Standings & Schedules

ALWAYS UP TO DATE

- **Live standings** — W-L record, win percentage, games behind, streak, last 10 games, points for/against
- **Playoff indicators** — Top 4 teams highlighted as postseason contenders
- **Full calendar** — Month view or list view. Tap past games for box scores, see upcoming fixtures with times and venues
- **Auto schedule generation** — Admins generate single/double/triple round-robin schedules. Pick game days, time slots, and venue — the app handles the rest

-
- **Division management** — Create Premier, Women's, or any custom division
-
- **Invite codes** — Generate codes for team reps. Set usage limits and expiration. When someone signs up with a code, they're automatically assigned to the right team with the right permissions
-
- **User roles** — Admin, Rep, Statistician, Media, Press, Fan — each sees only what they need
-
- **Season management** — Create new seasons, archive completed ones, switch active seasons
-

7 Press & Media Tools

PROFESSIONAL COVERAGE

Press Credential Card

Digital press credential showing name, email, and season accreditation. Professional media dashboard.

Game Summaries

Auto-generated narrative summaries for any completed game. Copy to clipboard for articles, social media, or reports.

Head-to-Head Compare

Compare any two teams or players side by side across all stat categories and recent matchups.

Stats Export

Download and share statistical data for reporting and broadcast use.

8 Push Notifications

NEVER MISS WHAT MATTERS

- **New announcements** — Instant alerts when the JBA posts to the board
- **Acknowledgment reminders** — Nudges if you haven't confirmed a required notice
- **Stat entry reminders** — Alerts when a game needs stats entered
- **Customizable** — Turn on what you want, turn off what you don't

9 What It Costs to Run

BUILT TO BE FREE

HoopsConnect runs on **Firebase** (Google's cloud platform). No servers to buy, no IT staff to hire, no software licenses.

\$0 PER MONTH CURRENT SCALE	SCALE	MONTHLY COST	NOTES
	Up to 1,000 users	Free	Well within free tier
	5,000 users	\$0 – \$5	Typical league scale
	10,000 users	\$2 – \$15	Less than a referee's game fee
	50,000 users	\$20 – \$80	Massive national scale

Budget alerts can be set so the JBA is notified before any charges are incurred. The cloud database is the only cost — and at Jamaica basketball scale, it falls within the free tier.

The Vision — Why This Matters

The Problem

Jamaica produces exceptional basketball talent. Every year, players compete in the NBL and high school leagues with skill and athleticism that rival anywhere in the Caribbean. But **almost none of them are seen beyond Jamaica's borders**. There are no accessible stats, no player profiles, no way for a college coach in Florida or a professional team in São Paulo to look up a player's averages.

The Person Behind It

Kali McCarthy understands this problem intimately. As a former Jamaica national team player, NBL competitor, junior national team member, high school standout, US college basketball player, and professional overseas — Kali has lived every stage of the basketball journey from Kingston to the world.

Jamaica National Team

NBL Player

Junior National Team

Manning Cup

US College Basketball

Professional Overseas

That experience revealed a clear truth: **the gap is not in the talent — it's in the systems**. Countries with proper stats tracking produce more recruited players, not because they have better talent, but because their talent is **visible**.

The Opportunity

College Scouts

US & Canadian colleges can follow players all season — not just at a single showcase

International Pro Teams

Teams from Brazil, Argentina, Mexico can identify and track Jamaican prospects

Player Exposure

Every player gets a digital resume — proof of performance, shareable worldwide

This app is not a business proposal. It is a contribution from someone who loves Jamaica's basketball and believes in its potential.

JA HoopsConnect — Available on iPhone & Android

Built with love for Jamaica basketball.
