

JA HoopsConnect

THE FUTURE OF JAMAICA
BASKETBALL

JAMAICA BASKETBALL
ASSOCIATION

Jamaica has real basketball talent. The problem is that **no one outside the island can see it**. There are no accessible stats, no digital footprint, no way for a college scout or international team to follow a player's development. **HoopsConnect changes that** — giving every player, every game, and every season a permanent, shareable record visible to the world.

A Personal Contribution

KALI
MCCARTHY

Built and donated by **Kali McCarthy** — who has lived the journey from high school courts in Jamaica to professional basketball overseas. Having experienced every level of the game, Kali has an intimate understanding of where the talent gap lies — and it's not in the talent itself. **It's in the systems**. This app is his contribution to the sport he loves and believes in.

What It Does

Live Stats & Box Scores

Record game stats in real time or after. Full box scores with PTS, REB, AST, STL, BLK, MIN for every player.

Leaderboards & Player Cards

Automated league leaders across 5 categories. Player cards with season averages and game logs.

Standings & Schedules

Live standings with W-L, streaks, playoff indicators. Auto-generated round-robin schedules.

Board & Acknowledgments

Central communication hub with read-receipt tracking. Know who's seen every critical notice.

Team & League Management

Divisions, rosters, invite codes, user roles. One admin panel to run the entire league.

Push Notifications

Automatic alerts for announcements, game reminders, stat deadlines, and ack requests.

The Bigger Picture — Why Stats Open Doors

College Scouts

International Teams

Player Exposure

US & Canadian colleges can discover and recruit talent by following stats all season long.

Professional teams from Brazil, Argentina, Mexico can identify and track Jamaican prospects.

Every player gets a digital resume. 22 PPG in the NBL Premier deserves to be seen by the world.
